

Secure Shopping Policy

For your added protection and peace of mind, TopTools4Tots.com provides a secure and safe shopping environment. Secure Sockets Layer (SSL) protocol makes certain that all of your information is encrypted (scrambled) as it travels over the Internet and is decrypted when it reaches the processing point. We will only use your personal information to confirm your order, process your transaction, process shipping from the manufacturer, and contact you in the event of any problems with your order.
